OPENSYNERGY

Software Engineer – Integrator (f/m/d)

Location: **Berlin**
Start Date: **immediately**

Our Company

OpenSynergy works on one of the most fascinating topics in software development: e.g. the integration of Linux or Android solutions with automotive-specific software such as AUTOSAR, the development of the Bluetooth® stack Blue SDK, of an OTA update mechanism and a kit providing high quality of signal processing for hands-free applications in the car.
Our customers include automotive manufacturers and suppliers. That's why COQOS rides along in the car.

OpenSynergy is an independently managed company. Its headquarters are situated in Berlin with locations in Munich and the United States. The company is continuously growing and our corporate culture is inspired by the internationality of our employees, partners and customers.

OpenSynergy is a development member of the AUTOSAR development partnership, member of the GENIVI Alliance, The Linux Foundation and Automotive Grade Linux (AGL). It participates in national and international research projects such as ARAMIS and EURO-MILS.

If you would like to join our team, apply today. We look forward to meeting you.

Your Responsibilities

You will be part of the Operating Systems team working with COQOS Hypervisor SDK. You will work with product development and customer specific projects. You will work with Linux and Android kernels, virtualized drivers (virtio) and hypervisor.

Our Expectations

- You have completed a BS or MS in Computer Science, Electrical Engineering or in a related field
- Minimum 5 years of experience of working with embedded Linux
- Experience with YOCTO
- Experience with Android (especially the build toolchain)
- A very good understanding of how Linux distributions work
- Experience with development on embedded devices
- Experience in programming in C/C++, Python and Bash
- You work well within a team and take a creative, hands-on approach to the benefit of those around you
- You have a good command of English (for technical work)
- Highly committed, extremely flexible, and willing to show initiative are all words that describe you.

We Offer
- a creative working atmosphere with flexitime
- a chance to work in Berlin's dynamic district Friedrichshain
- international colleagues and customers
- an opportunity to work with experts in the field of embedded software for cars
- onsite German language courses
- open-minded and fair working atmosphere

Please send your complete CV (including a response to the specific job requirements and your salary expectations) to jobs@opensynergy.com.
