# OPENSYNERGY

# Senior Test Manager (f/m/d)

**Location:**          **Berlin**
**Start Date:**          **immediately**

## Our Company

OpenSynergy works on one of the most fascinating topics in software development; embedded automotive systems. We lead the way by integration of Linux or Android solutions with automotive-specific software such as AUTOSAR, the development of the Bluetooth® stack Blue SDK, of an OTA update mechanism and a kit providing high quality of signal processing for hands-free applications in the car.
Our customers include automotive manufacturers and suppliers. That's why COQOS rides along in the car.

OpenSynergy is an independently managed company. Its headquarters are situated in Berlin with locations in Munich and the United States. The company is continuously growing and our corporate culture is inspired by the internationality of our employees, partners and customers.

OpenSynergy is a development member of the AUTOSAR development partnership, member of the GENIVI Alliance, The Linux Foundation and Automotive Grade Linux (AGL). It participates in national and international research projects such as ARAMIS and EURO-MILS.

If you would like to join our team, apply today. We look forward to meeting you.

## Your mission

Delivery and Professional Services is responsible for integrating OpenSynergy's high-tech products into customer environments and customer products - This can be major projects or small support tasks depending on the customers experience, environments, and complexity. For example: to help them in designing their architecture using COQOS, to port COQOS to their hardware, to support them in using the product or to carry out customer-specific development of software modules. The Test Manager is responsible for all the quality assurance aspects for the service projects, you will lead a team of quality assurance engineers.

- You are responsible for validation aspects of the requirements analysis; to break down customer requirements into test cases and ensures that our deliveries fulfill the customers' requirements
- You are responsible to create test-cases to cover new features and use-cases, to reuse existing test-cases, and to combine all test-cases into test-plans for our customer projects
- You are responsible to align the test-runs with the customer project releases and ensure the results and correctness of the test completion reports.

## Our Expectations

- You hold a state-recognized degree as a B.Sc. or M.Sc in Computer Science, Electrical Engineering or in a related field
- You have experience of leading teams as engineering manager, project manager, or technical lead
- You have experience in the testing and/or development of
  - embedded software and/ or

- ◦ operating systems
- You are familiar with:
  - ◦ Test methods and processes
  - ◦ Error diagnostics and error documentation
  - ◦ Test specification and test automation
  - ◦ Linux
- You are especially interested in complex software solutions, as you easily analyse problems like dependencies, weak spots and risks
- You are familiar with Agile SW Development methods, practices, and tools
- You are goal-oriented in inviting feedback
- You have very good command of English, spoken and written.

## Furthermore, experience in the following fields is of high value:
- Virtualization technology
- You are familiar with:
  - ◦ ASPICE
  - ◦ ISO 26262.

## Why us
- A medium-sized company with start-up flair, with a culture of short distances to each other and close cooperation, where everyone knows everyone
- An innovative, international and open work environment with long-term and diverse perspectives with flat hierarchies
- Semi-annual feedback culture and annual salary reviews
- Flexible distribution of working hours (trust-based flex time) and home office as well as 30 vacation days per year
- Fresh fruits and vegetables, club mate, fair trade coffee, organic milk and many different types of tea are freely available
- A large lounge area with a nice kicker
- Bike leasing possible for all employees from their first working day
- Regular sporting company events and team events
- Cooperation with the Urban Sports Club
- Bonus payment for referring new employees
- Sponsored German or English classes if needed.
